Sprint 4 Report
Coursierge
June 6th, 2018

Actions to Stop Doing:

Putting things off to the last minute. We were busy with other things and we let it get in the way of our time management for this Sprint. We should have made a better plan on how we were going to do everything we needed to accomplish.

Actions to Start Doing:

Manage our time better. Again we were really busy because it was the end of the quarter, but we must understand when things are due and should remind ourselves that we must get it done.

Actions to Keep Doing:

Our communication was really good this Sprint. We were terrific are figuring out what we needed to do and who was going to what at each time. We were always in contact with each other even if we couldn't do a certain part of what we needed to do in that moment.

Work Completed:
- As a professor, I want to be able to cut video and use audio only to save bandwidth
- As a professor, I want to be able to share my screen so other students can see what materials I am referring to during lecture.
- As a professor, I want to be able to ask a question so I can gauge how well I taught the material and how well my students understand it
- As a student, I want to be able to answer these professor questions so my progress can be noted.
- As a student, I want to be able to send a question to the professor so I can understand the material better if needed.

Work Not Completed:

- As a student, I want to be able to easily ask a question to the professor without having to type it out so it easier for me to convey my question.
  : issues with switching streams

Work Completion Rate:

Total User Stories Completed : 5
Total Work Hours Estimated: 32
Total Days Worked: 13
User Stories/day: .38 -> 38% a day
Hours/day: 2.46 hours a day
